

REPORTS ON EFFECTIVENESS OF THE 4-HERB FORMULA

The following information is not to be taken as medical advice from The Herbal Healer Academy. I am simply reporting to you, for your enjoyment and entertainment, the testimonials and information that members of the Herbal Healer Academy have reported to me. These are some of the more dramatic reports that I find exciting and inspiring. These are all true and the people reporting have purchased their herbal formula from this Academy. This information is copyrighted and owned by Dr. Marijah McCain ND.

REPORT - # 1

Letter received Dec. 10th/1993 from a school member. Typed verbatim

" In July, my wife was diagnosed having a growth on her left breast at the Roosevelt Hospital in this city. They would call her to fix a date for surgical removal. October the 5th we began taking the herbs two times a day. Nov. 1st she went to the hospital for the last instructions and another test; at this time, they DID NOT find the growth; there was no operation. Also for the first time in years she hasn't had the allergy reactions and always expected colds up to this day. Thanks!"

REPORT - # 2

A woman reported to me that all of her body hair had come out. She was losing the hair on her head at a very rapid rate. Her arms were covered with white spots from the wrist to the elbow and when these spots were held up to the light they appeared shiny or glazed. (possible fungal infection - Marijah note) She reported that she has been taking the herbal formula for 7 months now. The white spots are peeling off and the skin underneath is normal. The most remarkable thing is that all her hair is growing back in brown. She is a senior citizen and her hair was all gray! She reports that she takes 2 oz. once in the morning and once at night.

REPORT - # 3

Member with an inoperable brain tumor and Kohn's disease. She reports having had radiation and chemotherapy. After only three weeks taking the herbs 3 times a day, this is what she reports. "Chronic diarrhea has just about stopped (8 months constant) - 85% improvement! Constant head pains diminished - thinking clear - reduced medication 65-70%!!!" (Marijah's note: take a moment to think about this... this is remarkable!)

REPORT - # 4

"Dear Herbal Healer, first let me say I am answering your questionnaire because I want to and because I believe in what you are doing. What type of illness is the formula used for? Lumps on my 33-year-old (retarded) son's arms and a lump in my left breast. None of which I have ever seen a doctor for. Would you say this formula has helped the ailment being treated? YES! My son's lumps have shrunk down. One in particular on his right arm near the elbow was the size of a silver dollar and raise up quite a bit. So much that the skin was tight over it. My lump had grown to the size of a silver dollar or more very quickly and did hurt almost all the time pulling the nipple in while it grew. The pain left within a week of taking the herbs. Coming back only after I hadn't taken it for a month. The lump is now down to the size of a quarter and has no pain. I have always known that there were other methods of healing then Allopathic. When I was twenty-five I was tested and told both times that I had cancer of the uterus, and that I would be in great pain in six months at the rate it was growing. I refused the operation, changed my diet, changed my lifestyle, made peace with my maker, and prepared to die. I went on to have three more children and at fifty-six I am still waiting to die. It may happen someday, but not today, I am too busy. Thanks for making the formula so easy to obtain."

REPORT # 5

What type of illness being treated? DIABETES - dose - 2 ounces of tea daily - "Blood sugar was at start 265 - in three days the blood sugar was 103 - After 6 weeks the blood sugar is still 103-105 - I have plenty of energy." Would you say this formula helped the ailment that was treated? "Quite so- Remarkable!"

REPORT # 6

Husband has diabetes- Juvenile - 2 oz. a day - "There was increased energy and after 2 weeks of taking tea, blood sugar had started to decrease and by 1st month sugar count had gone from 190 to 80-100. It is now stable. Also son started taking it for maintenance and noticed that he had started to lose unwanted weight.

REPORT # 7

A health care professional who makes up the formula and uses it on patients and family reported a couple of fascinating cases. The first was an elderly man dying of cancer. He was in a great deal of pain and had to be given 360 mg. of morphine on a regular basis. She put him on the 4 herb formula. He began to hallucinate, so she suggested that the morphine be withheld until he specifically asked for it. He was asked on a regular basis if he needed any pain medication and he said no. This patient did die, however, he died completely free from pain killers. The 4 herb formula was able to relieve all his pain.

Item two is very dramatic. Woman diagnosed with cervical cancer that had settled in the lymph nodes. Two large bubbles appeared in the groin area. One ruptured the other was lanced. The one that was lanced had progressed to the size of a baseball. After being lanced it started to bleed. This patient had been openly told by her medical doctor that she would die a terrible, horrible death, and not live to see her children grow up. Person was taking the herbal formula 2X a day. Bleeding worsened and towels were getting soaked. They became desperate and after going to other doctors arrived at a surgeon in the hopes that the wound could be cauterized. In the desperation to save this woman's life, Essiac was poured directly into the open wound. The surgeon upon examination and pressure, was able to help the wound drain of some very putrid pieces of flesh. The health care worker reported that it smelled like the stench of death. This drained out, and to give you an idea of the size of the hole, it took 6 feet of cotton gauze to pack it. The next day and all further days since there has been no bleeding. There was a large bump inside the opening and it has shrunk to 1/3 the size. Her hemoglobin count was down to 7. She has now stabilized and her weight is no longer dropping. The health care worker says that it was the Essiac poured into the wound that worked to free up the poisons and she believes it also stopped the bleeding. This patient would have died had she been left to her original doctor. I had not heard of this formula to help stop bleeding, but since then there was another report of a woman bleeding to death with a similar disease. The allopaths said there was nothing to be done. Her hemoglobin was 4. She started taking the tea and she was still alive at last report.

I hear about these triumphant occurrences on a regular basis now-a-days! It is very exciting. Not everyone responds to the 4 herb formula, but that doesn't mean there isn't some other wonderful herbal formula or natural medicine that would help. The point here is that the allopathic doctors do not have all the answers. When a medical doctor says to you, that you will die, or you have this or that incurable disease, get a second opinion. Not from another allopath, but from a natural health care practitioner. It could very well save your life...

We have all forms of this formula available - Bulk, Liquid Concentrate & Capsules
