

HHA APPLE CIDER VINEGAR PLUS

THE SAFE & HEALTHY WAY TO LOSE WEIGHT!

We could all do with an Anti-Aging health supplement to keep the immune system working well, that rev's up the Metabolism with Resultant Weight Loss, that also adds vitality and energy! With a proper working metabolism, the body simply Naturally Detoxes accumulated poisons that can store in the fat!

Apple Cider Vinegar has been used for ages and has proven itself safe and effective for helping many health issues. This product is so safe, it can be used for children with weight problems and people with high blood pressure and diabetes! Folks there is no excuse now! Lose the fat that is contributing to your health problems. The vinegar is made from fresh natural apples that contain pectin, a soluble fiber which binds to cholesterol globules and pulls them out of the body. This also helps remove unwanted heavy metals! Less fat and cholesterol in the body reduces the risk of just about any ailment! It works 24 hours a day to help your body remove unwanted fat. There are no side effects. We do recommend that you drink 2-3 glasses of extra water daily to help your body flush this fat out and speed up the weight loss process. Similar products are being advertised in national magazines and the cost ranges from \$65.00 to \$99.95 for 180 caps.

EACH HHA APPLE CIDER VINEGAR CAPSULE CONTAINS:

APPLE CIDER VINEGAR - 500 mg. - Helps curb appetite, gentle detoxification agent, absorbs and blocks fat formation, boosts the immune system, supplies amino acids, minerals and vitamins, aids in metabolism to help burn and metabolize food efficiently. Apple Cider has acetic acid, plus ion-futynic lactic and propionic acid. This not only boosts the immune system, but also has antiseptic and antibiotic action. It is the richest source of amino acids known. Has been shown over the years of use to help arthritis, diabetes, lower cholesterol, increase circulation, tone up skin, help heart problems, chronic headaches, anxiety, and a host of others.

plus LECITHIN – 200 mg - Type of lipid that is needed by every living cell in the body. Improves brain function. Helps prevent arteriosclerosis and protects against cardiovascular disease. Lecithin enables fats, such as cholesterol to be dispersed in water and easily removed from the body. Protects organs from fatty build up. It is known to naturally promote energy and is also needed to help restore and repair the liver.

plus GLUCOMANNAN FIBER - 100 mg. - Comes from the tuber of the Amorphophallis plant, it picks up and removes fat from the colon walls. It expands to 60 times its own weight and thus aids in curbing the appetite. It is recognized for normalizing blood sugar and is good for people with hypoglycemia.

plus KELP - 74 mg - Helps regulate the thyroid for proper glandular function thus aiding in weight loss. Used for conditions such as hair loss, obesity, low thyroid and ulcers. Kelp is a rich source of vitamins, valuable minerals and trace elements. It is very beneficial for brain tissue, membranes surrounding the brain, sensory nerves, the spinal cord and blood vessels. It also helps body block radiation absorption.

plus GRAPEFRUIT FIBER - 30 mg. - This is a fat buster. It helps break down fat fast, lowers blood cholesterol and balances the blood sugar.

plus VITAMIN B-6 - 7 mg. - Pyridoxine (B-6) is involved with more bodily functions than almost any other single nutrient. It activates enzymes which help break down fat. It aids in brain and nerve function. It helps balance sodium and potassium, and promotes red blood cell formation. Plays a large role in cancer immunity and helps prevent arteriosclerosis by helping to clean arteries. B-6 inhibits the formation of the toxic chemical called homocysteine, which attacks the heart muscle and allows for deposits of cholesterol around the heart muscle. Mild diuretic and helps aid in the prevention of kidney stones. Carpel Tunnel syndrome has been linked to a B-6 deficiency.

plus CHROMIUM - 200 mcg. - Average American diet is deficient in chromium! Researchers estimate that two out of every three Americans are hypoglycemic or diabetic. The ability to maintain normal blood sugar levels is jeopardized by the lack of chromium in our soil and water. Chromium, an essential mineral, helps maintain stable blood sugar levels. It is vital in the synthesis of fats, cholesterol, and proteins. It is also vital in the metabolism of glucose which is needed for energy. It also helps in the proper metabolism of amino acids. It promotes the loss of fat and an increase in lean muscle tissue.

Adult Dose: Start with 2 caps twice per day. Drink 2-3 glasses of extra water.

Increase in 2 weeks to three times a day. If you are over 200 pounds, then take 3 caps instead of 2.

Children - ages 5 to 10 & Elderly over 70 - 1 cap three times a day

Children - ages 3 to 5 - 1 cap twice daily - Can be opened and added to a drink.

Many times weight gain is due to poor metabolic function, so see our other weight loss products too.
